

SECTION 10B - SURGICAL CLASSIFICATIONS

ACL Reconstruction -	Class 1
A&P Repair -	Class 2
Adenoidectomy -	Class 2
Amputation of gangrenous extremity -	Class 4
Appendectomy, incidental inflamed ruptured	Class 2; Class 3; Class 4.
Arthroscopy (Knee, shoulder, elbow) -	Class 1
BLT - Bilateral tubal ligation (laproscopic or open) -	Class 1
Bladder surgery, RAZ -	Class 2
Bowel resection (no spillage) Bowel perforated during surgery -	Class 2; Class 3
Breast (reduction / implant / biopsy) -	Class 1
Bunionectomy-	Class 1
Cardiac surgery -	Class 1
Cataract surgery -	Class 2
C-section (elective; if it's a repeat, it's the same, too) -	Class 1
With membranes ruptured < 24 hours-	Class 2
With membranes ruptured > 24 hours-	Class 3
Carpal Tunnel Release -	Class 1
Cervical cerclage -	Class 2
Cholecystectomy (regular or laproscopic) -	Class 2
Circumcision -	Class 2
Colectomy (sigmoid or subtotal)- Spillage of excrement/fluids into abdomen -	Class 2; Class 3
Cytocele Repair -	Class 2
Cystectomy - Class is based on the location of the cyst; if abdominal -	Class 1
D&C (with or without cone biopsy) -	Class 2
Debridement of gangrenous extremity -	Class 4
Dental surgery -	Class 2
Exploratory lap - the alimentary tract, bowel or GU Tract is NOT entered - the bowel is entered - When bowel is spilled - the bowel is entered and peritonitis (gross pus) is found -	Class 1 Class 2; Class 3; Class 4
Eye surgery -	Class 1
Ear surgery (PET) -	Class 2
Fistulotomy - (check chart)	Class 3 or 4
Hernia (inguinal, ventral, umbilical, etc.) -	Class 1
Hip replacement -	Class 1
Hemicolectomy -	Class 2 or 3
Hemorrhoidectomy -	Class 3
Hydrocelectomy -	Class 1
Hysterectomy (abdominal & vaginal) -	Class 2
I&D (Incision and Drainage) of abscess, wound, extremity etc. -	Class 4
IOL (PHACO) -	Class 1
Joint Replacement -	Class 1
Lap Chole -	Class 2
Laparotomy (does not enter the bowel) -	Class 1

SECTION 10B – Surgical Wound Class List, continued

Lensectomy -	Class 1
Lumpectomy -	Class 1
MRM -	Class 1
Mammoplasty reduction -	Class 1
Marshall Marchetti Kranz -	Class 2
Mastectomy -	Class 1
Myomectomy -	Class 1
Myringotomy -	Class 2
Nephrectomy -	Class 1
Nose & throat surgery -	Class 2
Odontectomies -(Pulling teeth) -	Class 2
ORIF-elective, not immediately after trauma/no open wounds or infection pre-op-	Class 1
ORIF-trauma<24 hours old, open wounds/infection are present pre-op -(need check)	Class 2-3
Orthopedic (not after blunt trauma) -	Class 1
Osteotomy -	Class 1
PET (Pressure-equalizing tubes placed in the ears) -	Class 2
PHACO (Cataract surgery done with a "PHACO" machine) -	
Pilonidal cystectomy -	Class depends on findings - generally a 3 or 4
Prostatectomy -	Class 2
Pyelogram -	Class 2
Septoplasty -	Class 2
Splenectomy -	Class 1
Rectal surgery -	Class 3
T&A -	Class 2
TAH - Total abdominal Hysterectomy -	Class 2
TVH - Total vaginal hysterectomy -	Class 2
Tonsillectomy -	Class 2
Thoracotomy -	Class 2
Tracheostomy -	Class 2
Transurethral stone extraction -	Class 2
Tubal reversal -	Class 1
TURP -	Class 2
TURP (pre-op Urine C&S positive) -	Class 3
Urethroscopy (extraction of stone or other) -	Class 2
Urethral stent placement -	Class 2
Urethrotomy -	Class 2
Vaginal delivery with membranes ruptured <24 hrs -	Class 2
Vaginal Delivery with membranes ruptured >24 hrs-	Class 3
Vascular surgery (Femoral-popliteal bypass, Arterial-femoral bypass, vein-stripping) -	Class 1
Vasectomy -	Class 2
VCUG -	Class 2
